GIVING BACK

19th - 26th September

This annual week of high profile events, initiatives and community based action packed activities is set to start a trend in your community.

The idea is to encourage the reduction of violence and gun, knife and gang crime and the building of communities of security and justice for all, where young people have the chance to fulfil their God-given potential.

We currently live in a society whereby we have much violence, conflict and disaster. Despite this, there are many of us who want peace, love and harmony. This is a unique opportunity, for locals and partnerships to come together to embrace, celebrate and [promote peace within our community](#).

"All it takes for the triumph of evil is for good people to do nothing"
